

ALL THINGS STORIES WRITING PROGRAM

“ There is no greater agony than bearing an untold story inside you.” Maya Angelou

At This is Me!, we will be bringing out the writer in you-coaching aspiring authors through the publishing process from inspiration to writing to publishing and having your book right in your hands. It's time to embrace your story for your story needs to be told.

HOW DO WE DO THIS?

We use a design thinking strategy to get your book from out of your head into the hands of your target audience. It's about ideas to action.

A. INSPIRATION: Love with action

We work with you on brainstorming different ideas and scenarios that best suit you and the needs of the audience. Sometimes it is easy to get stuck in your head and that is ok. Maybe you need a push, and we are here to get the ball rolling on the different ideas and concepts that are floating in your mind.

B. IDEATION: Live with passion

Once we have gone through the miry clay of ideas and settled on what your message is, we work with you on building this idea. Your story, your message needs to be authentically you. We want your readers to see and feel you through your words and we will make sure that your words actually convey what you want to say

C. IMPLEMENTATION: Lead with influence

As you are writing your story, do not worry! You are not alone. We are walking with you on this journey that will take you from your mind to writing to editing and making sure you get your book published. You do deserve to be a published author.
